Koso's philosophy

Koso, a synonym for quality and performance. With more than 35 years of experience designing and manufacturing high quality products, Koso has become well known across the powersports and OEM industries for its good reputation for reliability, innovation and capability. Whether we are manufacturing a product under private label, OEM or aftermarket products quality always remains our top priority. Innovation and creating new technologies are the keys to Koso's philosophy and drives us to continue pushing the limit further.

For several years now, Koso has had the opportunity to work with an outstanding team of engineers. Along with our state of the art testing equipment and production facilities, Koso has remained a leader in analog and digital technology. Koso produces a wide range of quality gauges/meters, heated equipment, LED indicators taillights and headlights as well as mirrors and engine parts. Koso is proud to offer a complete line of quality products for serious riders.

LCD meters for Harley-Davidson® (4 pieces)

Following the positive reviews we received from Harley enthusiasts, we decided to release the updated bagger meter kit for 2014 to 2023 touring models. This plug & play kit from Koso is now available to replace the stock meters without any hassle! There is no need to drill holes or to rewire the meters, they will fit directly in the OEM dash and connectors. This kit features an 8 color changeable LCD display for a custom look to fit your motorcycle. The HD-03 kit includes a multifunction speedometer, tachometer, oil temperature meter and a fuel level meter. If you're looking to enhance the look of your Harley, Koso has the plug & play solution for you!

meters for Harley-Davidson* (6 pieces)

Our R&D department worked hard to create something new and modern for Harleys. The engineers responded by coming up with a complete plug & play system to replace the stock meters. No need to drill holes or to rewire the meters, they will all fit directly in the OEM dash and connectors. Both silver and black bezel kits feature a dual color changeable LCD display (red or blue) for a custom look.

The 6 piece kit includes a 4" speedometer, 4" tachometer with gear position, 2" oil pressure meter, 2" fuel level meter, a 2" volt meter and the choice of a 2" ambient temperature meter or 2" oil temperature meter. This meter is a great addition to all Harley FLHT, FLHX, and FLTR from 2004 to 2013.

* Fits Harley-Davidson® FLHT, FLHX & FLTR from 2004 to 2013. ** Gauges can be sold separately **

multifunction meter for Harley-Davidson®

The all-new 100% plug and play HD-05 series for 4 ½" gas tank mounted Harley-Davidson® gauges feature a tach and speedo combo. They are equipped with a programmable shift light, gear indicator, engine temperature and battery voltage. They also feature average fuel economy readings and a complete system of indicators to monitor your bike's vital signs.

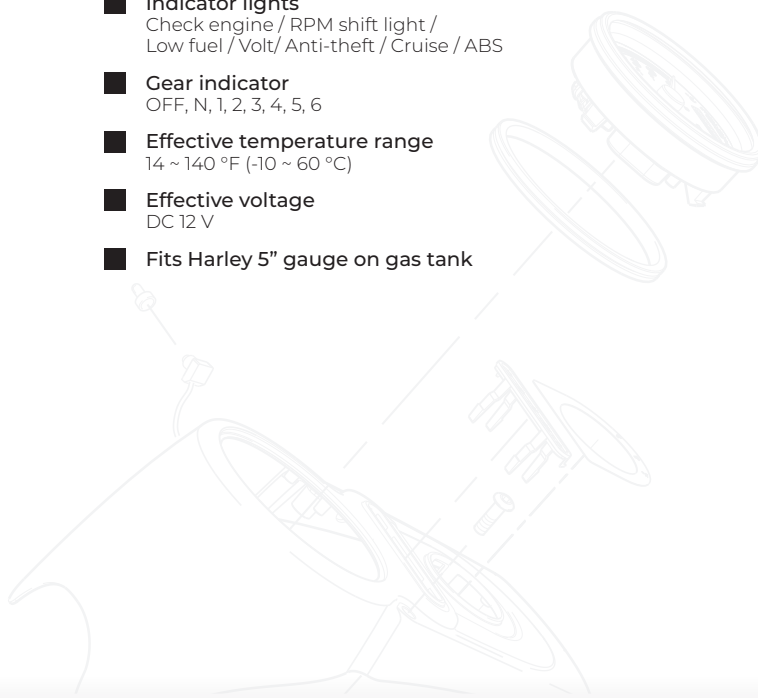

These plug and play kits fit directly into the stock harness and work directly in relation with your bikes CANBUS system.

BF620000

GPS signal converter kit

Some applications require different alternatives from the conventional speed sensor that is installed on the wheel. Whether it is a question of appearance (for those who do not want wires to be visible), or a question of functionality, this GPS speed signal converter offers more installation options, such as; cars, boats, snowmobiles, and many others !

Its 66 satellite antenna will capture the GPS signal, and the converter will transfer it into a pulse signal that will communicate with the speedometer. A simple, yet versatile accessory that is the future of GPS speed signal converters !
